

## Our Eco-Code

Everyone together respects and  
Cares for our school and the environment.  
Once a week we try to walk, scoot or cycle to  
and from school to reduce pollution.

Trying hard to reduce, reuse, and recycle.  
Each day saving water and electricity by  
turning off our taps, lights and computers.  
Always drinking water and eating healthy  
snacks.

Making our school grounds and Wilderness  
even better places to help the wildlife.

Collecting litter and throwing it in the bin.  
Only putting paper and cardboard in the blue  
recycling bag.  
Don't put things in the bin that could be  
recycled or reused.

Eco team thank you if you are able to follow  
this code.
